Database 2 Project - ArtConnect Application

#GitHub link : https://github.com/Miner205/Database-2-Project

Step 1 : Understanding ArtConnect and Defining the Functional Scope

Delivrable : • A document containing the list of features, the use case diagram, and the class diagrams.

#Features List of ArtConnect App (Local Art Community Platform):

-See Discover tab.

-See Artists tab ;

  -Can Search artists via their Name.

  -Can Filter artists by their Discipline (Painting, etc.).

-See Artworks tab.

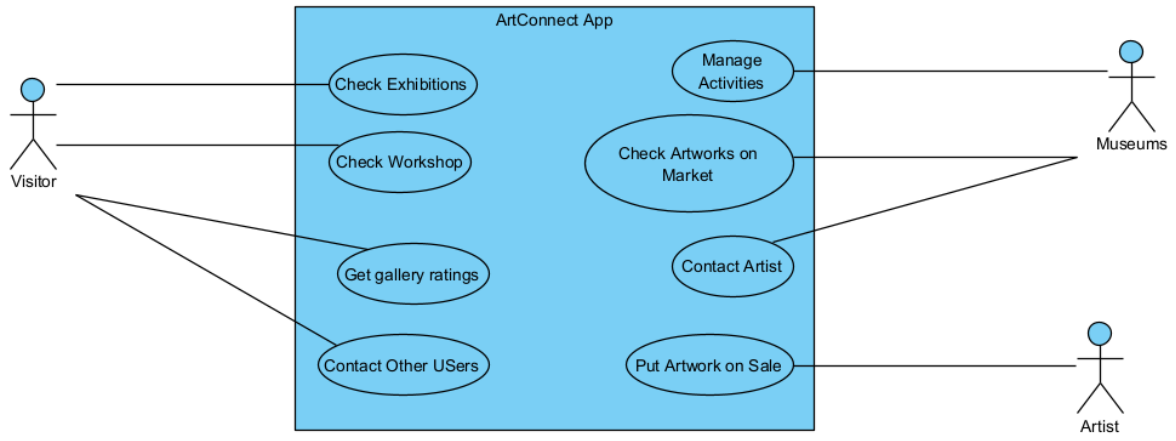
-See Galleries tab.

-See Exhibitions tab.

-See Workshops tab.

-See Community tab.

#Use case diagram:



#Class diagrams:
